Sector-15, Noida, UP

## EDUCATION

- Marwadi Education Foundation ( GTU)

B.E in Computer Engineering, CPI: 6.85

• Senior Secondary Examination XII

North Star High School,Siwan, 63%
- Rajkot

Sept 2019 - Sept 2023

Siwan

May 2015 - May 2017

## EXPERIENCE

- Indian Infotech

Software Developer

• ProminentPixel Software

Software Engineer

• KaaShiv Infotech

Frontend Developer (intern)
- Ahmedabad

Jan 2024 - May 2024

Rajkot

Dec 2022 - July 2023

Remote

May 2022 - June 2022
- Developed a robust exam management application using React JS and Angular, CSS for a responsive user interface. Enabled users to visualise geographical points easily, further enriching the application's functionality.

◦ Seamlessly integrated APIs with a SpringBoot backend to handle HTTP requests and responses, ensuring efficient communication between frontend and backend.

◦ Develop Many React App, user engagement by 65% by seamlessly integrating various api for content manipulation, enabling users to visualise Food order app , quote app, thus enhancing the overall user experience.

◦ Implemented an callback functions and es6 functions utilizing api, reducing user errors by 25% when sending messages and significantly improving the overall usability of the application.

◦ Developed a web app using HTML, CSS, AJAX for asynchronous data retrieval and real-time updates, resulting in a 40% load time reduction through optimized API requests and efficient data caching.

◦ Increased user engagement by 65% by seamlessly integrating jQuery for runtime content manipulation, enabling users to visualise geographical points with ease, thus enhancing the overall user experience.

## SKILLS

**Programming Languages:** Java, JavaScript, Basic .NET ,  
**Web Technologies :& Database :** React/Angular HTML, CSS, Object Oriented Programming (OOPS), DBMS, MySQL, Oracle  
**Well Verse with** Data Structures and Algorithms, Computer Network (CN), Operating Systems (OS), Git/GitHub, MacBook .

## PROJECTS

**Blog-Website***ReactJS,CSS3, Firebase*

- Leveraged React for efficient state management and React Router for seamless navigation to craft a responsive solution. Employed to establish a connection to firebase and centralised state management architecture.

◦ Engineered a robust blogging functionality allowing users to dynamically add, remove, and modify items , text in real-time. Ensured a synchronised Blogging experience across diverse components, enhancing user engagement and satisfaction.

**Employee Management System***ReactJS,CSS3, Firebase*

- Leveraged React for efficient state management and React Router for seamless navigation to craft a responsive solution. Employed to establish a connection to firebase and centralised state management architecture.

◦ Engineered a robust blogging functionality allowing users to dynamically add, remove, and modify items , text in real-time. Ensured a synchronised Blogging experience across diverse components, enhancing user engagement and satisfaction.

**Examination Application** *ReactJS,CSS3, Firebase*

- Leveraged React for efficient state management and React Router for seamless navigation to craft a responsive solution. Employed to establish a connection to firebase and centralised state management architecture.

◦ Engineered a robust blogging functionality allowing users to dynamically add, remove, and modify items , text in real-time. Ensured a synchronised Blogging experience across diverse components, enhancing user engagement and satisfaction.

## CERTIFICATION

- Oracle Database Certified **Certified**

• Awarded a **Certified** of excellence in Java.

• Earned a 5 star rating on **HackerRank**

• Java Programming with Data Structure 1 Year Course Coding Ninjas **Certified**

• Cisco JavaScript Institute **Certified**
