EDUCATION

- **Marwadi Education Foundation (GTU)**   Rajkot
  B.E in Computer Engineering, CPI: 6.85   Sept 2019 - Sept 2023
- **Senior Secondary Examination XII**   Siwan
  North Star High School,Siwan, 63%   May 2015 - May 2017

EXPERIENCE

- **Indian Infotech**   Ahmedabad
  Software Developer   Jan 2024 - May 2024
  - Developed a robust employee management application using React, CSS for a responsive user interface. Enabled users to visualise attendence data easily, further enriching the application's functionality.
  - Seamlessly integrated APIs with a SpringBoot backend to handle HTTP requests and responses, ensuring efficient communication between frontend and backend.
- **ProminentPixel Software**   Rajkot
  Software Engineer   Dec 2022 - July 2023
  - Develop Many React App, user engagement by 65% by seamlessly integrating various api for content manipulation other apps are Food order app , quote app, overall user experience.
  - Implemented an callback functions and es6 functions utilizing api, reducing user errors by 25% when sending messages and significantly improving the overall usability of the application.
- **KaaShiv Infotech**   Remote
  Frontend Developer (intern)   May 2022 - June 2022
  - Developed a web app using HTML, CSS, AJAX for asynchronous data retrieval and real-time updates, resulting in a 40% load time reduction through optimized API requests and efficient data caching.
  - Increased user engagement by 65% by seamlessly integrating jQuery for runtime content manipulation,make interactive, thus enhancing the overall user experience.

SKILLS

Programming Languages: Java , JavaScript , Basic .NET ,
Web Technologies :& Database :   React/Angular HTML , CSS, OOPS, DBMS, MySQL, Oracle
Well Verse with   Data Structures and Algorithms, CN,OS, Mac .

PROJECTS

Blog-Website   *ReactJS , CSS3 , Firebase , Bootstrap*

1. Developed a blog website using ReactJS for UI, ensuring seamless user interactions and real-time updates. Leveraged CSS3 and Bootstrap to create a responsive and visually appealing user interface, enhancing overall user experience.
2. Implemented Firebase for backend services, including authentication and data storage, enabling secure user login and real-time data synchronization. Utilized Router for smooth navigation across different sections of the website,

Employee Management System   *ReactJS , CSS3 , Spring Boot , Java , MySQL Workbench , Hibernate*

1. Designed and developed comprehensive CRUD (Create, Read, Update, Delete) functionalities for employee data, allowing users to manage employee records in real-time. Utilized Spring Boot for backend services and MySQL Workbench for db management.
2. Implemented efficient state management using React and ensured seamless navigation with Router, resulting in a highly responsive and interactive user interface. Developed a centralized s. m. architecture to handle complex state changes efficiently.
3. Integrated Spring Boot with Hibernate for seamless dbms operations. Leveraged MySQL Workbench for efficient database schema design and query execution.

Examination Application   *ReactJS, CSS3, Spring Boot, Java, MySQL Workbench, Hibernate*

1. Create a comprehensive examination management system using ReactJS for the front end, providing a responsive and user-friendly interface to facilitate seamless exam creation, administration, and analysis.
2. Implemented the back end with Spring Boot and Java, ensuring Vigorous and scalable server-side logic to handle complex examination workflows, user authentication, and authorization mechanisms.
3. Enhanced the user interface with CSS3 to create a visually appealing and intuitive design, improving the overall user experience and engagement.

CERTIFICATION

- Oracle Database Certified **Certified**
- Awarded a **Certified** of excellence in Java.
- Earned a 5 star rating on **HackerRank**
- Java Programming with Data Structure 1 Year Course Coding Nin. **Certified**
- Cisco JavaScript Institute **Certified**
